

The Rochester and Cattaraugus County PTACs are working with the SBA in the Buffalo area to promote a matchmaker event to primes and government agencies.

The variety of good and services available from qualified small firms in the Western NY area is extensive and evident in the number of clients from (2) PTACs and SBAs (SDBs, 8(a)s and Hubzone) combined memberships - over 600 small businesses. These firms are ready to do business.

This event will not only broaden markets for small firms, but connect primes/government agencies with firms to help reach contracting goals.
